KEY SPECIFICATIONS

Motor power

AC 3.0 HP

Speed range

1-20 km/h

Incline range

-3% to +40%

SLED resistance setting

1-60 kg

Running area (L x W)

1650 x 550 mm

Max. user weight

120 kg

Dimensions (L x W x H)

1770 x 930 x 1705 mm

Standard console

LED

LT8

Run, climb and push.

Adjust speed, incline and SLED resistance to suit each session. The lifting deck makes steep hill training possible on the same machine used for everyday runs.

Optional 21-inch TFT shown; supports 1:1 phone screen mirroring.

Decline position

Intermediate incline

High-incline position

Running

1-20 km/h

Walk, run or alternate work and recovery intervals at 1-20 km/h.

Incline training

-3% to +40%

Move from -3% decline to +40% incline for hill walks, sustained climbs and incline intervals.

SLED pushing

1-60 kg setting

Drive the belt against adjustable resistance at a fixed station, without a separate sled lane.

LT6M

Solid-Wood Treadmill

Furniture-grade solid-wood components bring a natural finish to hotel gyms and private fitness rooms. A 3.0 HP AC motor supports walking, running and incline training.

- Solid-wood uprights and deck-side components
- LEPOW variable-frequency motor control
- LED console; optional 21-inch TFT

Optional TFT display supports 1:1 smartphone screen mirroring.

LT3

Folding Treadmill

Open the deck for walking, running and incline training. Fold it upward after use to reduce its storage footprint and make room for other activities.

- Upward-folding deck
- 2.5 HP AC motor
- Black frame with red deck details

A 2.5 HP DC motor version is also available.
